

Encryption Controls Workshop

April 30, 1998 - Irvine

On December 30, 1996, the Export Administration Regulations were amended to transfer to the Commerce Control List all encryption items previously controlled on the U.S. Munitions List, except those specifically designed, developed, configured, adapted, or modified for military applications. The regulations apply to hardware, software and technical data.

This full day program will assist exporters of encryption items in complying with the Department of Commerce regulations. Representatives from the Bureau of Export Administration (BXA) and the National Security Agency (NSA) will explain:

- ✓ The background and current U.S. policy
- ✓ The main elements of the controls
- ✓ License Exception KMI and other license exceptions
- ✓ Exports over the internet
- ✓ The license process
